Hernández & Cía Abogados has helped Bogotá-based Altra Investments sell IT services business Corporación Sapia to Brazilian Stefanini Group.

Two teams of lawyers from Hernández & Cía advised Altra and Sapia.

Stefanini Group, an IT services company, is thought to have hired Muñiz, Olaya, Meléndez, Castro, Ono & Herrera in Lima, but this could not be confirmed before publication.

The deal closed on 29 October for a confidential amount.

Stefanini Group, which made the acquisition through its Peruvian vehicle, bought the entirety of Sapia, formerly known as Cosapi Data.

Sapia has over 33 years of experience in the Peruvian market, offering customers data centre services and artificial intelligence.

Altra [acquired](#) Sapia (then known Copasi Data and Copasi Soft) back in 2013. Muñiz was involved that time too.
